International application No.

PCT/KR2003/001750

V. Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims	1-5	YES
	Claims	None	NO
Inventive step (IS)	Claims	None	YES
	Claims	1-5	NO
Industrial applicability (IA)	Claims	1-5	YES
	Claims	None	NO

2. Citations and explanations (Rule 70.7)

D1=EP 1146589 A1

D2=KR 10-2002-0045914

1. Novelty and inventive step

D1 is related to chip antenna element but present invention is related to PIFA. D2 is related to PIFA and has antenna radiation patch which is taped-shape in figure 3b.

D2 doesn't include exact shape identical to the radiation patch of the present invention. But the difference of shape between present invention and D2 is obvious to the person skilled in this art.

So the subject matter of claims 1-5 is considered to be new but not to involve an inventive step.

2. Industrial applicability

The subject matter of claims 1-5 meets the criteria of PCT article 33(4) because it can be used in industry.
